Calf Feed Supplement

MegaBoost calf feed is specially formulated, designed to promote early rumen development for healthy calves. This gives your calves the head start they need to reach their full body weight potential.

MegaBoost is our own product, mixed to our specifications, combining essential grains, minerals and vitamins, essential to your calves early development.

The higher protein content (20%) of the Grower feed is designed to bridge the energy/protein gap and meet the calves rapid growth needs. The Weaner feed has a lower protein content of 16% for cost effective feeding of growing stock.

MegaBoost Starter Calf Meal

Use from 4 days until 4 weeks of age. Highly palatable with a concentration of molasses, designed to encourage calves to get started on meal.

Dose Rate:	AD-LIB
Energy:	Analysis (approximate on dry matter basis) ME: 12.5MJ/kg, Crude Protein: 18%, Crude Fibre: 4.5%, NDF:14.7%
Pack Size:	25kg bag, 40 x 25kg pallet

MegaBoost Grower Calf Pellets

Use from 4 weeks until 7 weeks of age. Designed to be fed on an "ad lib" basis with calves on once a day milk intake. Calves that are reared indoors for more than 7 weeks should be also fed this product because of its high level of protein needed when calves are not yet eating grass.

Dose Rate:	AD-LIB
Energy:	Analysis (approximate on dry matter basis) ME: 12MJ/kg, Crude Protein: 20%, Crude Fibre: 7.4%, NDF:28%
Pack Size:	25kg bag, 40 x 25kg pallet

MegaBoost Weaner Calf Pellets

Use from 5 weeks until 12 weeks of age (or until target weight is achieved). Suitable once calves are over 5 weeks old and 70 kg in bodyweight, and eating good quality grass.

Dose Rate:	AD-LIB
Energy:	Analysis (approximate on dry matter basis) ME: 11.5MJ/kg, Crude Protein: 16%, Crude Fibre: 6.5%, NDF:25%
Pack Size:	25kg bag, 40 x 25kg pallet
